

# The Industry Leader

The Best in High Performance  
Permanent Pavement Repair

## Guaranteed Once and Done in 3 Easy Steps:

1.

Using a broom or leaf blower, clean out large chunks and debris from the hole.

2.

Apply UPM to the hole, fill to 25% higher than the surface. If hole is deeper than 3", install and compact in lifts.

3.

Compact material with hand tamper, truck/car tires, plate compactors or rollers. Road will be open to traffic in 30 minutes.

**COST EFFECTIVE - PERMANENTLY REPAIRED**  
**EASY INSTALLATION - GUARANTEED RESULTS**
